

**The City of Palm Springs Welcomes  
National Association of County Engineers  
April 15-18, 2024**

**EVENT INFORMATION**

The National Association of County Engineers is a nonprofit, nonpartisan professional association in our 7th decade. We're the voice America depends on for safe, efficient county roads and bridges. Nationwide, counties own and maintain 46% of the nation's roads and 40% of the nation's bridges, making them the single largest stakeholder in local road and bridge construction, rehabilitation, expansion and maintenance. NACE advocates to federal officials and lawmakers the importance of funding these county-owned assets. Our members rely on NACE for information and awareness on the latest innovations in engineering technology, best practices, management systems, and software.
